Sometimes, the dog's stool is normal, but at the end of the bowel movement, the dog leaks a few droplets of blood. The blood in this case derives from the dog's lower intestinal tract involving either the anal, rectal, or descending colon. Following are some medical conditions in dogs known for causing hematochezia.

Causes of Blood in Dog Stool - Dog's Upset Stomach
Theranos (/ ˈ θ ɛ r ə n oʊ s /) was a privately held health technology corporation. It was initially touted as a breakthrough technology company, with claims of having devised blood tests that required only very small amounts of blood and could be performed very rapidly using small automated devices the company had developed. However, the claims later proved to be false.

Theranos - Wikipedia
Droplets of blood which drip when the dog is urinating. Blood with clots which take on a darker color. Pure blood, as in the dog only seems to be urinating blood. As hematuria is often accompanied by vomiting and diarrhea, it is very important to also be aware of any other symptoms which may accompany the blood in the pee.

Why Does My Dog Pee a Little Blood? - Causes and Symptoms
" Every Drop of Blood, despite the imagery of its title, isn't about battles. Its primary focus is on Friday, March 3, and Saturday, March 4, 1865, the day before and the day of Lincoln's second inauguration, and the speech he would deliver that day... Achorn analyzes the speech as an artifact of its time and author.
